(*) *Common European Framework of Reference for Languages*

- Social skills and competences

team work experience gained in participating and managing various teams, including software developers and other sometimes whimsical team mates
good communication skills gained in interactions with many customers and partners
good presentation skills gained from lecturing (working with students) and many commercial presentations
multicultural environment experience gained from cooperation with partners / subcontractors / subsidiaries out of Slovenia and on international projects
 some **sales skills** painfully obtained as being a GM of a mid-sized company; quite good at closing and negotiations, not as good in initial sales phases
- Organisational skills and competences

leadership skills, especially in a highly motivated team, gained in managing my company of 80 employees and many project teams
sense of organisation obtained in organizing my own company and consultancy work
 project management skills gained in many projects, including some government projects that had to be managed very formally
financial management and control skills gained in running my company and acting as an investor; able to work with independent partners / subcontractors from experience as a system integrator and as prime contractor or subcontractor in many projects
shareholders relations, mergers & acquisitions, corporate organisation experience gained through experience as being a GM of a complex ownership company and later through consultancy work
- Technical skills and competences

decent knowledge of **quality management** standards from implementation of ISO 9001
 good knowledge of **information security management** standards from consulting on ISO 17799
 good **multidisciplinary skills**, able to participate in fairly technical discussions in electronics, sensors, mechanical design, aviation, biosciences, biotechnology, environment sciences, chemistry, physics, ...
- Computer skills and competences

Working experience with almost any common desktop software (Microsoft, Linux ... all but Apple), working experience on many operating systems (including system administration skills on Windows servers, Linux and many other Unix like systems, OpenVMS ...). Working experience with Oracle and MySQL; very good knowledge of Java, Perl, Python, PHP, Ruby and most Web technologies (JavaScript, XML, HTML5, VRML, ...). I still keep myself in shape in down-to-earth programming: although I may not be as fast as some of the younger colleagues, I am definitely capable of discussing every single technical detail. An expert user of Microsoft Office tools, user of Adobe CS5, Rhinoceros, Mathematica, ... (excluding Corel and AutoCAD).
- Other skills and competences

Private pilot license - JAR PPL(A), [~400 hours]
 Boat Leader License with more than 15 years of seasonal cruising sailing and many regattas (with very good results years ago)
 Advanced Open Water Scuba Diving License
- Driving licence

Category B
